We believe In the existence of a Supreme God called Odomonkuma, often called Oboadee or Borebore the great Creator, carver sculpture, and architect who continuously creates'. Nyame infuses creation with motion, force, or vibration. It is through Nyame that we receive O'te [Understanding-insight-hindsight-foresight-wisdom] it is through Nyame that thought forms are born, the power of the word, the beauty of sound, personal and universal energy is realized.

Nyame communicates with each of us through the signs and symbols of nature, through the quiet voice within.
